

FURKAN ŞENYÜZ

- Civil engineer since 2016 — planning and cost control on **€2B+** of highway and bridge megaprojects.
- Tenders for projects in **10+ countries**, plus FIDIC contract and claim management.
- Builds AI tools for construction — one answers questions from **~24,000** project letters and is used daily.

A EXPERIENCE

Project Management Office Chief

MAR 2024 → PRESENT

Taşıyapı — Kuzmin-Sremska Rača Highway (€345M) · Kuzmin, Serbia

- Managing all interim payment certificates (IPC), contract administration and progress reporting.
- Preparing extension-of-time (EOT) and cost claims, with supporting schedules in Primavera P6.

Tendering & Project Management Specialist

AUG 2021 — MAR 2024

Taşıyapı — Belgrade HQ · Belgrade, Serbia

- Prepared end-to-end tender documents — BOQ and costing — for projects in 10+ countries.
- Managed project controls (claims, budget, planning) and FIDIC Yellow Book 1999 administration.

Planning & Cost Control Chief

JAN — AUG 2021

Fernas — Aydın-Denizli Motorway (€1.14B) · Aydın, Türkiye

- Created the master plan for all major works in TILOS.
- Established all project reporting systems.

Technical Office Chief

AUG — DEC 2019

Limak — Malkara-Çanakkale Motorway, incl. 1915 Çanakkale Bridge · Çanakkale, Türkiye

- Built the technical office from scratch — all reporting and site-tracking systems.
- Created the master plan for earthworks, structures and pavement.

Planning & Cost Control Engineer

JAN 2018 — AUG 2019

Limak — Northern Marmara Motorway (\$500M) · Kocaeli, Türkiye

- Detailed schedules for critical works — tunnels, prefabricated beams — with resource analysis.
- Unit costs, material requirements and margins in Microsoft AX (ERP).
- Managed progress payments for all steel bridges.

Site Chief & Civil Engineer

DEC 2016 — JAN 2018

Mat Yapı — 10,000 m² residential, 100 units · Istanbul, Türkiye

- Ran all site operations with Earned Value Management (EVM) tracking.
- Designed the slope-stability plan for a 10 m deep excavation.

B AI PROJECTS

FS-AI-01	DCC — Document Intelligence Platform RAG · GEMINI · PGVECTOR	IN DAILY USE
RAG platform over ~24,000 FIDIC letters on the Kuzmin–Sremska Rača project — hybrid search, claim threading and a Gemini chat assistant.		
FS-AI-02	Invoice Audit System — cross-checks invoices vs weighbridge & site records	
FS-AI-03	IPC × RFI Check — checks IPC quantities against approved RFIs	
FS-AI-04	Tender Brief Analyzer — tender dossiers into page-referenced briefs	
FS-AI-05	BOQ & Unit Price Analyzer — automated unit rates & BOQ pricing	
FS-AI-06	Concrete Strength Prediction — ML · TS EN 206-1 · demo on furkansenyuz.com	

C EDUCATION

2011–16	BSc Civil Engineering — honor student, graduated a semester early	Muğla SKU (100% English)
2015	Erasmus — West Pomeranian University of Technology	Szczecin, Poland

D CERTIFICATIONS & TRAINING

2026 →	Machine Learning Specialization — in progress	Stanford / Andrew Ng
2026	Data Science & Machine Learning Bootcamp	Türkiye AI Academy · Huawei HSD
2026	AI & Machine Learning — Data Analysis School	YÖK · Marmara / ODTÜ / İTÜ / Boğaziçi
2026	Python for Everybody Specialization	University of Michigan
2026	The Arbitration of International Disputes	Leiden University
2023	Project Management Expertise	İTÜ
2023	Int. Construction Contracts & Claims (FIDIC)	İTÜ
2019	TILOS Linear Project Management	Grid Group
2018	Oracle Primavera P6 Advanced	Akım Müh. / Oracle Partner

E CAPABILITIES

■ FIELD / CONSTRUCTION	□ DIGITAL / AI
◆ Primavera P6 & TILOS — mega-project scheduling ◆ Tender & Cost — BOQ, costing, market & risk analysis ◆ FIDIC & Claims — contract management & disputes ◆ EVM & Progress — payments, reporting, cost control	◆ Python & SQL — automating BOQ & cost analysis ◆ ML & AI APIs — RAG, LLM integration (Gemini) ◆ Power BI & ERP — Microsoft AX ◆ Engineering tools — AutoCAD 2D, Plaxis, Revit

LANGUAGES — Turkish (native) · English (C1)
