

FURKAN ŞENYÜZ

CIVIL ENGINEER & AI ENGINEER

- In civil engineering since 2016 — technical office, planning and cost control on highway & bridge megaprojects with a combined value of **€2B+**.
- End-to-end tender preparation (BOQ, costing) for projects in **10+ countries**; FIDIC Yellow Book administration and claim management.
- Builds AI tools for construction — a deployed RAG document-intelligence platform over ~24,000 FIDIC letters (Python · pgvector · Gemini).

A EXPERIENCE

Project Management Office Chief

MAR 2024 → PRESENT

Taşıyapı — Kuzmin-Sremska Rača Highway (€345M) · Kuzmin, Serbia

- Managing all interim payment certificates (IPC) and contract administration.
- Developing claim-management programs in Primavera P6 and delivering progress reports.
- Preparing claim files — extension-of-time (EOT) and cost claims with full substantiation.

Tendering & Project Management Specialist

AUG 2021 — MAR 2024

Taşıyapı — Belgrade HQ · Belgrade, Serbia

- Prepared end-to-end tender documents — BOQ and costing — for projects in 10+ countries.
- Managed project controls (claims, budget, planning) and FIDIC Yellow Book 1999 administration.
- Prepared claim files for FIDIC projects — EOT and cost claims.

Planning & Cost Control Chief

JAN — AUG 2021

Fernas — Aydın-Denizli Motorway (€1.14B) · Aydın, Türkiye

- Created the master plan for all major works in TILOS.
- Established all project reporting systems.

2020 · Exam preparation — full-time preparation for the KPSS (Türkiye's public-personnel selection examination) · Jan — Sep 2020

Technical Office Chief

AUG — DEC 2019

Limak — Malkara-Çanakkale Motorway, incl. 1915 Çanakkale Bridge · Çanakkale, Türkiye

- Built the technical office from scratch — all reporting and site-tracking systems.
- Created the master plan for earthworks, structures and pavement.

Planning & Cost Control Engineer

JAN 2018 — AUG 2019

Limak — Northern Marmara Motorway (\$500M) · Kocaeli, Türkiye

- Detailed schedules for critical works — tunnels, prefabricated beams — with resource analysis.
- Unit costs, material requirements and margins in Microsoft AX (ERP).
- Managed progress payments for all steel bridge constructions.

Site Chief & Civil Engineer

DEC 2016 — JAN 2018

Mat Yapı — 10,000 m² residential, 100 units · Istanbul, Türkiye

- Ran all site operations with Earned Value Management (EVM) tracking.
- Designed the slope-stability plan for a 10 m deep excavation.

B

AI PROJECTS – DRAWING REGISTER

FS-AI-01	DCC – Document Intelligence Platform RAG · GEMINI · PGVECTOR	ISSUED
RAG platform over ~24,000 FIDIC project letters – hybrid pgvector search, claim threading and a Gemini chat assistant. In daily use on the Kuzmin–Sremska Rača project.		
FS-AI-02	Invoice Audit System – cross-checks invoices vs weighbridge & site records	Issued
FS-AI-03	IPC × RFI Check – checks IPC quantities against approved RFIs	Issued
FS-AI-04	Tender Brief Analyzer – tender dossiers into page-referenced briefs	Issued
FS-AI-05	BOQ & Unit Price Analyzer – automated unit rates & BOQ pricing	Issued
FS-AI-06	Concrete Strength Prediction – ML · TS EN 206-1 · demo on furkansenyuz.com	Issued

C

EDUCATION

2011–16	BSc Civil Engineering – honor student, graduated a semester early	Muğla SKU (100% English)
2015	Erasmus – West Pomeranian University of Technology	Szczecin, Poland

D

CERTIFICATIONS & TRAINING

2026 →	Machine Learning Specialization – in progress	Stanford / Andrew Ng
2026	Data Science & Machine Learning Bootcamp – Python, data analysis, ML models	Türkiye AI Academy · Huawei HSD
2026	AI & Machine Learning – Data Analysis School	YÖK · Marmara / ODTÜ / İTÜ / Boğaziçi
2026	AI & Productivity Tools – Data Analysis School	YÖK · Marmara / ODTÜ / İTÜ / Boğaziçi
2026	Python for Everybody – 5-course specialization	University of Michigan
2023	Project Management Expertise – 66 h	İTÜ
2023	Int. Construction Contracts & Claims (FIDIC)	İTÜ
2019	TILOS Linear Project Management	Grid Group
2018	Oracle Primavera P6 Advanced	Akım Müh. / Oracle Partner
Cert.	The Arbitration of International Disputes	Leiden University

E

CAPABILITIES – TWO DISCIPLINES, ONE DESK

■ FIELD / CONSTRUCTION - Primavera P6 & TILOS – mega-project scheduling - Tender & Cost – BOQ, costing, market & risk analysis - FIDIC & Claims – contract management & dispute resolution - EVM & Progress – payments, reporting, cost control	□ DIGITAL / AI - Python & SQL – automating BOQ & cost analysis - ML & AI APIs – RAG, LLM integration (Gemini) - Power BI & ERP – Microsoft AX, data-driven decisions - Engineering tools – AutoCAD 2D, Plaxis, Revit
---	--

LANGUAGES – Turkish (native) · English (C1)
